The Hope Café is a training program. Funding support for this program is provided through The American Recovery and Reinvestment Act of 2009. The Apprentices are selected from individuals participating in local transitional housing and shelter programs.

Training is conducted at the Community Action Partnership Prep kitchen. Along with basic skills required for catering, the curriculum includes training in proper interviewing skills, how to dress for employment, interpersonal skills and customer relations.

Though the Hope Café employs these workers on a part-time basis, the goal is to provide trained, capable workers who can fill full-time jobs in the community.
