Youth Empowerment Center

CAP Youth Empowerment Center

The CAP Youth Empowerment Center targets Montgomery County youth, ages seven to 17, from low-to-moderate income areas. The center serves as the home-base for the agency's youth programming.

With a focus on entrepreneurship, financial management and vital life-skills training, youth are encouraged to take charge of their lives and their destiny.

The Youth Empowerment Center is the ideal place for young people to learn valuable skills and express themselves in a non-threatening environment.

Through the **Juvenile Mentoring Program (JuMP)** offered at the Youth Empowerment Center, young people build strong, supportive, healthy relationships through group and one-on-one mentoring with caring adults.

The CAP Youth Empowerment Center also offers the following services:

- Case Management
- Community Awareness & Community Service
- Conflict Resolution
- Cultural Enrichment Activities
- Educational Enrichment
- Field Trips
- Goal Setting Assistance

Operated off-site, the **Junior Inventors Achieve Notable Team Success (JIANTS)** Program offers basic entrepreneurship training. The program focuses on financial literacy, encourages innovative thinking and teaches teamwork.

Be A Part!

Adults are encouraged to be a part of our efforts. Volunteers are needed to mentor, tutor or be guest presenters. Please contact us at:
